Overview Repositories Projects Packages

ProTip! Updating your profile with your name, location, and a profile picture helps other GitHub users get to know you.

Edit profile

Popular repositories

You don't have any public repositories yet.

1 contribution in the last year

Contribution settings

This is your contribution graph. Your first square is for joining GitHub and you'll earn more as you make additional contributions. More contributions means a darker green square for that day. Over time, your chart might start looking something like this.

We have a quick guide that will show you how to create your first repository and earn more green squares!

Read the Hello World guide

Get started by [creating a new file](#) or [uploading an existing file](#). We recommend every repository include a [README](#), [LICENSE](#), and [.gitignore](#).

...or create a new repository on the command line

```
echo "# msc630estevesdias" >> README.md
git init
git add README.md
git commit -m "first commit"
git branch -M main
git remote add origin https://github.com/andre-95/msc630estevesdias.git
git push -u origin main
```

...or push an existing repository from the command line

```
git remote add origin https://github.com/andre-95/msc630estevesdias.git
git branch -M main
git push -u origin main
```

...or import code from another repository

You can initialize this repository with code from a Subversion, Mercurial, or TFS project.

Import code

 **ProTip!** Use the URL for this page when adding GitHub as a remote.
